

Creación del repositorio:

Create a new repository

Repositories contain a project's files and version history. Have a project elsewhere? [Import a repository](#).
Required fields are marked with an asterisk (*).

1

General

Owner *

makenzopowers-del

Repository name *

Practica1-Despliegue

✔ Practica1-Despliegue is available.

Great repository names are short and memorable. How about [solid-octo-dollop](#)?

Description

0 / 350 characters

2

Configuration

Choose visibility *

Public

Choose who can see and commit to this repository

Add README

READMEs can be used as longer descriptions. [About READMEs](#)

Off

Add .gitignore

.gitignore tells git which files not to track. [About ignoring files](#)

No .gitignore

Add license

Licenses explain how others can use your code. [About licenses](#)

No license
